

Guide to Insurance, etc.

This is a guide to insurance for all students who have completed the procedure for admission to Meiji Gakuin University.

■ Student Education and Research Casualty Insurance (All students insured)

All of the students are enrolled in this insurance at the time of admission. This insurance has been set up through agreements with Japan Educational Exchanges and Services and casualty insurance companies as a nationwide compensation system for disasters and accidents that occur while engaged in education and research or engaged in extracurricular activities that were notified to the university.

◎ The cost of the insurance is 3,300 yen for four years. This is collected together with the university fees so there is no need to undergo a separate joining procedure. Explanations and the terms and conditions regarding this insurance are given out at the “Student Life Orientation” during the orientation period for newly-enrolled students.

◎ The scope of accidents for which insurance claims will be paid is as follows.

- ① When taking a subject in the regular curriculum
- ② When participating in a university event
- ③ When inside university facilities for reasons except ①②④.
- ④ When engaged in extracurricular activities outside or inside the university facilities that were notified to the university
- ⑤ When commuting between your residence and the university facilities, etc. (both ways) , or while traveling between one university facility and another, etc. (including places where students take the regular classes and extracurricular activities outside the university facilities)

Payment conditions will change on each case.

For detail, please confirm with policy conditions.
