

Meiji Gakuin University ANPIC site
<https://anpic-v-meijigakuin.jecc.jp/meijigakuin/>

Login ID : student ID number
 Password : Password registered at the initial setup site

Setup Procedure

Smartphone user can use app and receive notification via LINE

※Even if you receive notification on LINE, you still need to install ANPIC app.
 Set according to the following procedure.

1. Install the app

On the App Store/Play Store/Google Play, search for **"anpic"** and install the app.
 ※If the application is not displayed in the search results by the above steps, please Tap the following icon from the bottom of ANPIC's HP (<https://www.anpic.jp>) "無料アプリのダウンロードはこちら! [Download the free app here!]" And transition to the download screen .

2. Launch the app and login

- Tap the icon of the installed app to launch the app.
- After launching the app, if a message asking to enable push notifications is displayed, Tap "OK" or "許可[permission]" to enable push notifications.
- Either:
 - Input your ANPIC site URL directly.
 - Tap the icon and read the QR code with your camera.
 - * If a message asking you to confirm permission to use the camera is displayed, tap [OK], etc. to accept.
 - * The QR code can also be displayed using "QRコード[QR code]" at the bottom of the login screen.
- Input your personal Login ID and password and Tap the "ログイン [Login]" button to log in.
 - * If you have forgotten your password, please ask the manager to provide you with a new password.

★If you log out, the next time you launch the app, you will have to input the URL, Login ID, and password again.
 ★If you change your device, please re-register your URL, Login ID and password

3. Configure notification options

To receive notifications via LINE

★ The LINE app must already be installed.

* If you receive notifications via LINE, you will not receive notifications from the app

- When the LINE notification settings screen appears, Tap "設定する [Configure]"
- When the confirmation message appears, Tap "OK"
- When the authentication screen appears, Tap "同意する[I Agree]" or "許可[permission]".
 【For iOS devices, the following steps may be required.】
- "このアプリを開きますか? [Do you want to open this app?]" is displayed, tap the "確認[Confirm]" button.
- "ANPICで開きますか?[Do you want to open with "ANPIC"?" is displayed, tap "開く[Open]".

- When the Add Friends screen appears, Tap "追加[Add]"
- Check the LINE chat screen for the above notification.
- To finish setup, open the ANPIC app and confirm that "LINE" is checked in the "通知[Notifications]" screen within "設定[Settings]"

To receive notifications via the app

* If you receive notifications via the app, you will not receive notifications from LINE

- When the LINE notification settings screen appears, Tap "設定しない[Don't Configure]"
- When a message about your configuration method appears, select "OK."

4. Access the website and send a test message

1. Open the Safety Report screen and Tap the icon to go to the website.
2. From the menu, Tap “アカウント設定[Account Settings]” to open the “Account Settings” screen.

3. Underneath “スマートフォンアプリ端末情報[Smartphone app device information]”, Tap “LINE通知をテスト送信する[Send a LINE notification test message]” or “プッシュ通知をテスト送信する[Send a push notification test message]”

4. If you receive the push notification in LINE or ANPIC, setup is complete
If you do not receive the notification, please see “If notifications are not delivered to LINE or ANPIC app and the other notes” at the bottom of this sheet.

- ★ If changing notification settings after initial setup (LINE/アプリ[app]/通知なし[disabled]), please change via the ANPIC options screen.
- ★ If receiving notifications via LINE, please be sure not to delete the ANPIC app.

If notifications are not delivered to LINE or ANPIC app and the other notes

If notifications are not delivered, please check the following points. (* The names of the screens may vary according to your smartphone.)

If receiving notifications via LINE

1. Unblock the ANPIC account.
2. Update LINE to the latest version.

If receiving notifications via the app

1. Turn on push notifications in your smartphone device settings
 Settings → Notifications → ANPIC
 Settings → Apps → Manage apps → ANPIC
 Settings → Sound and notifications → Manage notifications
2. Update app to the latest version.

Be careful in the future

- Do not delete app even if LINE is set.
- Do not log out of app regardless of settings.

How to respond via LINE

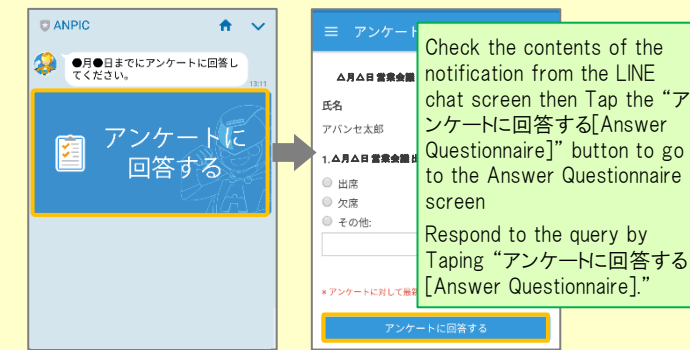

Report safety situation

Check the notification from the LINE chat screen, then Tap the “安否報告をする[Report Safety]” button to go to the Report Safety screen.

Select the “English” and respond to the query by Taping “安否状況を報告する[Report Safety Status].”
